Completion

September 2006

Amity Windsor is a 41 bed operational aged care establishment which required significant upgrade to meet BCA 9c requirements and to freshen and brighten the appeal of the facility throughout.

Total Construction completed this challenging project within the 8 months program and within budget. The project included kitchen area, common and individual living areas, emergency services and external landscaping.

Living areas were completely refurbished in stages (5 rooms/stage) to minimize disruption to operations. Rooms had new flooring, en-suites, cupboards and lighting and were painted throughout. Common areas had new floor finishes and lighting.
