Client

Ezards Restaurant

Project cost

\$200,000

Completion

June 2005

Ezards, located in the basement of the Adelphi Hotel, Melbourne is one of a select few restaurants which has been awarded the coveted three hats.

The project which had to be completed within a two week shutdown period involved renovation of interior finishes, new joinery, new amenities, kitchen modifications and purpose designed joinery and chandeliers. The architect was Carr Design.

Quality of finishes was to a high standard given the nature and reputation of the restaurant. Commencement and completion of the work within the two week shut down period demanded that all materials were ordered in advance to arrive on site exactly as programmed to meet this very tight schedule. The project team worked long hours to ensure that the renovations were completed and ready for the restaurant's re-opening for business on time.
