Office fit out – Leasehold Improvements. Total Construction was requested to fit out a suite of offices for accounting firm FMK in new offices at Norwest Business Park in Castle Hill NSW. The project had to be completed within a tight time frame and to a deadline so that relocation of the business could be accomplished over the short Christmas/New Year break.

Mr. Darren Kay, Managing Director said: *"We chose Total Construction to build our new office because of their professionalism and ability to take our vision and deliver the project without us having to worry about anything. They readily coped with minor changes during the conceptual and construction phases and what's more they completed it ahead of time and below budget. We are entirely satisfied with the result."*
