

Project Case Study

TOTAL
CONSTRUCTION
Concept to Completion

Project
Mausoleum and Chapel

Location
Liverpool, NSW

Client
Liverpool Presbyterian
Cemetery Trust

Project cost
\$3.3 million

Completion
May 2007

Total Construction was chosen by the client and architect to build this first of its kind up-market Family Vault Mausoleum and Chapel within the existing Liverpool cemetery.

There are twenty two internal separate family vaults in a semi-underground structure with secure nave entry. High quality finishes and special inclusions of stained glass light wells, marble and sandstone statues, faux marble columns, marble floor and wall linings are a notable feature of this outstanding design.

The project includes a glass walled chapel with seating for up to 86 people, a classic pipe organ, reception room overlooking the cemetery, and new administration office space.

The result is an outstanding and unique facility for the benefit of the Trust and its clients.
